

# **Introduction to the CPT and Level II National Codes/ Modifiers : Lesson 6**

During this lesson, students learn about the CPT book and how to code for procedures. This step is very important in the coding process because it allows the students to now almost completely code a case study by themselves. Once they learn the HCPCS and modifiers that are in the remainder of the lesson, the students can finally code an entire case study by themselves.

**Credit Hours: 30**
