

CAPSTONE: CASE INDUSTRY AND ANALYSIS

CAP400 — Business Management Capstone, 3.0 hours

PROFESSOR

Dr. Michael Marticek

I have worked in the transportation industry for over 15 years and 8 years in academics. I have been an aviation analyst for an aviation engineering firm. I have worked as an operational supervisor for United Parcel Service and my third position was a senior operational manager for an airline. I also owned my own business for 3 years, which was website development and Internet dial-up services. I sold the company off in 2004 and have been dedicating my time to higher education. My teaching experience has been online at various universities. I teach the MBA and doctoral programs. I have earned a B.S from Robert Morris University (Pittsburgh, PA) and a MBA in Finance from Strayer University. I also have a certificate as a Six Sigma Green Belt / Lean. I have a doctorate (DBA) from Walden University with a concentration in Information Systems Management. I look forward to meeting each of you through our online environment.

BOOKS AND RESOURCES

Contemporary Project Management 4th Edition 2019

EVALUATION METHOD

Graded work will receive a numeric score reflecting the quality of performance.
Course Requirement Summary

- Assignments - Total of 150 Points
- Weekly discussion forums-Total of 160 Points
- Final Exam - 100 Points

GRADING SCALE

Graded work will receive a numeric score reflecting the quality of performance as given above in evaluation methods. The maximum number of points a student may earn is 410. To determine the final grade, the student's earned points are divided by 410.

Your overall course grade will be determined according to the following scale:

A = (90% -100%)
B = (80% - 89%)
C = (70% - 79%)
F < (Below 70%)

ACADEMIC INTEGRITY/ PLAGIARISM:

Cheating (dishonestly taking the knowledge of another person whether on a test or an assignment and presenting it as your work) and plagiarism (to take and pass off as one's own the ideas or writing of another) are a serious issue. While it is legitimate to talk to others about your assignments and incorporate suggestions, do not let others "write" your assignments in the name of peer review or "borrow" sections or whole assignments written by others. We do get ideas from life experiences and what we read but be careful that you interpret these ideas and make them your own.

I am aware that many types of assignments are available on the internet and will check these sources when there is legitimate suspicion.

Penalty is a zero on the assignment. In cases where there is a major or continuous breach of trust, further discipline, such as an "F" in the course, may be necessary.

The major consequence of any form of cheating is damage to your character and the result of trust and respect.

DISABILITY ACCOMMODATIONS

Students who have a disability and wish to request an academic accommodation should contact Jim Gepperth, the Disabilities Services Coordinator and Academic Dean. The student can request an accommodation at any time although it is encouraged to do so early in the enrollment process. The student should complete an accommodation request form which begins a conversation between the school and the student regarding the nature of their disability and an accommodation that would help the student succeed in their program. The school may request documentation regarding the disability to address the accommodation request effectively. The school will communicate to the student the type of accommodation arranged. This process typically follows a team approach, bringing together persons from the academic department (including the instructor) and personnel from other departments as necessary. Additional information on disability accommodations may be found in the Lakewood University Catalog.
