BOOKS AND RESOURCES

Wahlen, Baginski, Bradshaw. Financial Reporting, Financial Statement Analysis, and Valuation, 12th ed.

EVALUATION METHOD

Graded work will receive a numeric score reflecting the quality of performance.
Course Requirement Summary

- Assignments - Total of 150 Points
- Weekly Writing Forums-Total of 160 Points
- Final Exam - 100 Points

GRADING SCALE

Graded work will receive a numeric score reflecting the quality of performance as given above in evaluation methods. The maximum number of points a student may earn is 190. To determine the final grade, the student's earned points are divided by 190.

Your overall course grade will be determined according to the following scale:

A = (90% -100%)

B = (80% - 89%)

C = (70% - 79%)

F < (Below 70%)

ACADEMIC INTEGRITY/ PLAGIARISM:

Cheating (dishonestly taking the knowledge of another person whether on a test or an assignment and presenting it as your work) and plagiarism (to take and pass off as one's own the ideas or writing of another) are a serious issue. While it is legitimate to talk to others about your assignments and incorporate suggestions, do not let others "write" your assignments in the name of peer review or "borrow" sections or whole assignments written by others. We do get ideas from life experiences and what we read but be careful that you interpret these ideas and make them your own.

I am aware that many types of assignments are available on the internet and will check these sources when there is legitimate suspicion.

Penalty is a zero on the assignment. In cases where there is a major or continuous breach of trust, further discipline, such as an "F" in the course, may be necessary.

The major consequence of any form of cheating is damage to your character and the result of trust and respect.

DISABILITY ACCOMMODATIONS

Students who have a disability and wish to request an academic accommodation should contact Jim Gepperth, the Disabilities Services Coordinator and Academic Dean. The student can request an accommodation at any time although it is encouraged to do so early in the enrollment process. The student should complete an accommodation request form which begins a conversation between the school and the student regarding the nature of their disability and an accommodation that would help the student succeed in their program. The school may request documentation regarding the disability to address the accommodation request effectively. The school will communicate to the student the type of accommodation arranged. This process typically follows a team approach, bringing together persons from the academic department (including the instructor) and personnel from other departments as necessary. Additional information on disability accommodations may be found in the Lakewood University Catalog.

DESCRIPTION

Use financial data to your advantage. Learn what financial disclosures contain and how they effect management decision-making, plus the principles and economic factors behind publicly reported disclosures, their limitations and constraints, and how to analyze them. You'll examine research methods and how they help you convert raw data into useful information that influences decisions about financial performance, wealth creation and economic valuation.

Program Objectives

1. Demonstrate the purpose of Financial Statement analysis, valuation, its structural foundation, and effective financial statement analysis
2. Identify, analyze, and interpret the Cash Flow Statement. Explain how it is linked to the balance sheet and income statement
3. Illustrate the ultimate objective of Financial Statement Analysis
4. Explain the effect of the quality of accounting on firm financial health and financial risk
5. Categorize accounting principles under GAAP & IFRS, and the ultimate objective of financing
6. Explain the value of projecting and evaluating expected returns
7. Evaluate payoff in terms of valuation
