BOOKS AND RESOURCES

Maryanne M. Mowen, *Managerial Accounting: The Cornerstone of Business Decision-Making*. 8th ed.: 2023.

EVALUATION METHOD

Graded work will receive a numeric score reflecting the quality of performance.

Course Requirement Summary

- Assignments - Total of 60 Points
- Weekly discussion forums-Total of 60 Points
- Midterm Quiz - 20 Points
- Final Exam - 50 Points

GRADING SCALE

Graded work will receive a numeric score reflecting the quality of performance as given above in evaluation methods. The maximum number of points a student may earn is 190. To determine the final grade, the student's earned points are divided by 190.

Your overall course grade will be determined according to the following scale:

A = (90% -100%)
B = (80% - 89%)
C = (70% - 79%)
D = (60% - 69%)
F < (Below 60%)

ACADEMIC INTEGRITY/ PLAGIARISM:

Cheating (dishonestly taking the knowledge of another person whether on a test or an assignment and presenting it as your work) and plagiarism (to take and pass off as one's own the ideas or writing of another) are a serious issue. While it is legitimate to talk to others about your assignments and incorporate suggestions, do not let others "write" your assignments in the name of peer review or "borrow" sections or whole assignments written by others. We do get ideas from life experiences and what we read but be careful that you interpret these ideas and make them your own.

I am aware that many types of assignments are available on the internet and will check these sources when there is legitimate suspicion.

Penalty is a zero on the assignment. In cases where there is a major or continuous breach of trust, further discipline, such as an "F" in the course, may be necessary.

The major consequence of any form of cheating is damage to your character and the result of trust and respect.

DISABILITY ACCOMMODATIONS

Students who have a disability and wish to request an academic accommodation should contact Jim Gepperth, the Disabilities Services Coordinator and Academic Dean. The student can request an accommodation at any time although it is encouraged to do so early in the enrollment process. The student should complete an accommodation request form which begins a conversation between the school and the student regarding the nature of their disability and an accommodation that would help the student succeed in their program. The school may request documentation regarding the disability to address the accommodation request effectively. The school will communicate to the student the type of accommodation arranged. This process typically follows a team approach, bringing together persons from the academic department (including the instructor) and personnel from other departments as necessary. Additional information on disability accommodations may be found in the Lakewood University Catalog.

DESCRIPTION

Managerial accounting is primarily concerned with generating financial and non-financial information for use by managers for decision-making. This course integrates common accounting concepts and processes with the manager's decision-making process. Topics covered include product planning decisions, cost control and performance evaluation, budgets and financial statements analysis. Throughout the course, a managerial viewpoint is stressed.

Program Objectives

1. Explain how cost behavior affects the information used to make decisions.
2. Describe the behavioral dimension of budgeting.
3. Explore the basic concept underlying variance analysis and justify the need for investigation. Explain why firms decide to decentralize.
4. Distinguish between independent and mutually inclusive capital investment decisions.
5. Describe the emerging topics in managerial accounting atmosphere today.
6. Prepare a statement of cash flow.
7. Perform a financial statement analysis.
